Patient Instructions and Information

Type of Examination:

3D Mammography, Low Radiation

- Wear a comfortable two-piece outfit.
- Please do not use deodorant or powders before your exam.

All Breast Biopsies

- Wear comfortable loose clothing.
- Please do not take aspirin or blood thinners 7 days prior to your appointment.
- Please advise our office of any medications you are taking.

Ultrasound for Abdomen (Gallbladder, Kidneys, Aorta)

- It is very important that you eat a fat-free meal the evening before your examination.
- Do not eat or drink at least 12 hours before your ultrasound examination.

Ultrasound for Pelvis and Pregnancy

- Drink 4 large glasses (8 oz.) of non-carbonated fluids (no milk) 1 to 2 hours before the exam. You must have a full bladder for a pelvic ultrasound.

CT Abdomen/Pelvis

- Nothing by mouth 4 hours before exam, except your medications and sips of water. Your doctor may instruct you to take oral contrast 1 and 2 hrs before exam.

DXA

- Comfortable clothing without metal, no calcium supplements, TUMS, etc., 24 hours prior to exam.

3T MRI

- Inform us if you have a pacemaker, stents, aneurysm clip, neurotransmitter, any metal objects in your body or eyes, or if you have worked with metal. Wear comfortable clothing and leave jewelry at home – NO METAL please.
